

Memo

SUBJECT: Mississauga Ontario Health Team – Thank you!	DATE: October 17, 2019
FROM: Michelle DiEmanuele, Chair	CC: Mississauga OHT Interim Governing Council
TO: Members, Affiliates and Stakeholders	

Where the Mississauga Ontario Health Team is today

We are pleased to report that the Mississauga Ontario Health Team (OHT) submitted its Full Application to become an OHT to the Ministry of Health (Ministry) on October 9!

We would like to thank each of you for your engagement, feedback and tireless support over the past two months to help us get to this moment, on top of the participation to submit our Readiness Self-Assessment in the spring. More than 100 stakeholders attended each of the stakeholder sessions, 75 attended the August co-design sessions and over 80 people reviewed the document in detail, all of which provided important feedback to develop and finalize the Full Application.

For your reference, we have attached a presentation that provides an overview of the Full Application submission and key commitments that were made. This is a public presentation so members and affiliates are welcome to share this with their teams as needed.

You may also notice a change to the look of the Mississauga OHT. As part of the application process we created a logo for the Full Application, which illustrates our commitment to partnership, the community and people that we serve together. This small step helps to bring members and affiliates together under the same banner for the purposes of OHT planning.

Meet our members and affiliates

We had a tremendous response to the call for members and affiliates following the September 23 information session. When we submitted the application, almost 50 organizations joined as members and over 50 organizations and individuals joined as affiliates. We recognize that membership is non-binding at this time but will help inform how we work together moving forward.

We will continue to share information with members and affiliates as we receive updates from the Ministry. We also welcome stakeholders who want to explore a potential partnership with the Mississauga OHT to reach out to us at info@moht.ca.

A full list of all members and affiliates can be found on the Mississauga OHT [website](#).

What's next?

The Ministry is now in the process of reviewing the 31 Full Application submissions and they have committed to announcing the OHT Candidates, including next steps for OHT applicants, later this fall.

We have a tremendous opportunity to improve the health of this community by working together and building on our strengths as a provider network. Thank you to our patient and family advisors, members, affiliates and stakeholders that came together over this summer to outline our vision of what is possible here through the OHT model.

We are excited about the path forward and commit to keeping you informed as we hear more from the Ministry on next steps. For more information about the Mississauga OHT, please visit www.moht.ca or email info@moht.ca if you have any questions, ideas or suggestions on how we can work together to advance the OHT model in Mississauga.

Thank you!
